

PURE PLUNGE

SMALL YARD POSSIBILITIES

HELP YOU CREATE THE BACKYARD
OASIS YOU DESERVE

PRODUCT OVERVIEW

Our mission is simple, to provide high quality Australian made plunge pools that enhance your lifestyle without breaking the bank.

Simple | Affordable | Australian

3 STEP PROCESS

STEP 1: CHOOSE YOUR WATER PREFERENCE

Standard Chlorine (\$)

No optional extras required, simply enjoy your plunge pool with the use of our pump, filter and the use of granular or liquid chlorine as required.

Magnesium salt (\$\$)

Simply add a Waterco Magnesium Chlorinator to the standard pool package and transform your plunge pool into a luxurious magnesium oasis. Enjoy softer, silkier water that helps minimise skin irritation while benefiting from the many wellness advantages of magnesium.

Freshwater (\$\$\$)

Choose the Naked Freshwater Package and enjoy fully automated water balance management by combining the NKD-M with our pH Controller. Experience the benefits of fresh, naturally balanced water with outstanding clarity, a cleaner and more refreshing swim, reduced maintenance requirements, and enhanced comfort—giving you more time to simply relax and enjoy your pool.

STEP 2: CHOOSE YOUR POOL SIZE

- Burleigh 5000ltr with bench seat
- Byron 1950ltr
- Bells 1300ltr

STEP 3: CHOOSE YOUR EXTRAS

Simply personalise your plunge pool with a range of optional extras, including custom lockable covers, energy-efficient heaters, LED lighting, stylish decking, and more. Create a pool experience tailored to your lifestyle with added comfort, convenience, and year-round enjoyment.

CUSTOM COVERS

Custom-made insulated pool covers come in vibrant colors to suit any backyard, tailored to your pool's dimensions with 8 lockable straps for a secure fit.

Made from UV-resistant materials, they minimize heat loss and evaporation, maintain water temperature, extend the swimming season, and improve energy efficiency while keeping debris out and enhancing safety.

- Durable construction ensures long-lasting performance in harsh weather.
- Reduces chemical use by limiting evaporation and UV breakdown
- Prevents algae growth by blocking sunlight penetration
- Child and pet safety with lockable straps for restricted access

\$1,245 DELIVERED

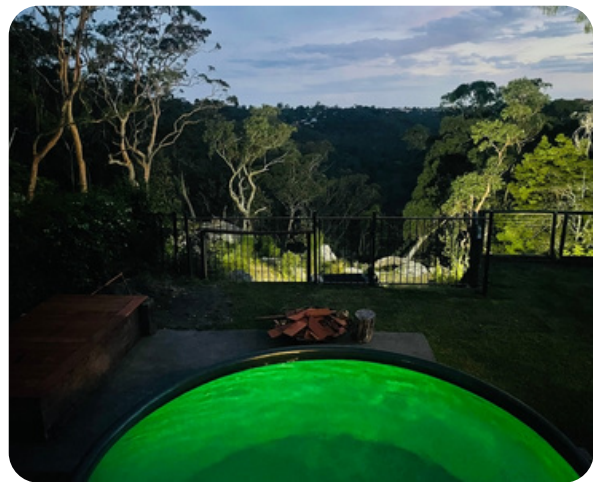

LIGHTING

Transform your pool with vibrant LED multi-colour underwater lighting. Perfect for evening swims and entertaining, these energy-efficient lights let you create the ideal mood with a range of colours and effects. Durable and fully waterproof, they add style and atmosphere to your pool all year round.

LED LIGHT **\$595**

HEATING

All Pure Plunge Pool packages can be equipped with a premium Waterco Heater or upgraded to a Waterco Heater/Cooler for complete temperature control throughout the year.

Heating extends your swimming season well beyond the warmer months, allowing you to enjoy comfortable water temperatures during autumn and winter, while the heater/cooler option also keeps water refreshingly cool during hot summer days. By maintaining your ideal swimming temperature year-round, you can maximise the use of your pool, enhance comfort, support relaxation and recovery, and get greater value from your investment every day of the year.

READYDECK

Custom-made decking systems built with a galvanised steel frame, available with your choice of hardwood or composite decking.

The integrated stairs and landing system provides concealed space for your pump, filter, heater, or chlorinator, ensuring your pool equipment is protected and neatly housed.

- Durable welded galvanised steel frame for long-lasting performance in harsh weather conditions
- Choice of hardwood or composite decking finishes
- Stainless steel safety railing optional
- ReadyDeck base with stairs and platform: 1200mm W x 2400mm D x 1150mm OR built for the Byron and Bells sizes too.
- ReadyDeck base with extended stairs and platform: 3600mm W x 2400mm D x 1150mm H

NAKED FRESHWATER SYSTEM

Combine NKD-M with our advanced pH Controller for a fully automated freshwater management system that maintains optimal water balance and crystal-clear water with minimal maintenance. By continuously managing sanitiser efficiency and pH levels, the system reduces manual testing and chemical adjustments while delivering consistently fresh, natural-feeling water.

Gentle on skin, eyes, and hair, the balanced freshwater environment helps eliminate the harsh chemical feel and odours associated with traditional pool systems, so there's no need to shower after your swim. Enjoy greater comfort, improved pool performance, and more time spent enjoying your pool rather than maintaining it.

- **No red eye;s or irritated skin**
- **Perfect for asthmatics, psoriasis and eczema**
- **Up to 50% saving on running costs**
- **No need to wash swimwear or shower after swimming**
- **Natural, rejuvenating and refreshing**
- **Easy to set up and manage**

SUPPLY, INSTALL & DELIVERY

We can organise fast, reliable, and cost-effective installation and delivery, including setup of the pump, filter, heater, light, and chlorinator, plus all necessary pipes, fittings, and valves.

Delivery is handled by a two-person team who will unload and place your plunge pool in your backyard, as long as clear access is available. For a quote, simply send us your postcode.

COMPARISON CHART

	 PURE PLUNGE	Competitor	Competitor	Competitor
POOL MATERIAL	HIGH DENSITY POLYETHYLENE	STAINLESS STEEL	FIBERGLASS	CONCRETE
PRICE	\$\$	\$\$\$	\$\$\$	\$\$\$\$
MATERIAL	12MM THICK SINGLE MOLDED DESIGN WITH NO JOINS	0.5MM THICK WITH WELDED JOINS SEALED WITH SILICON AND LINERS	4.8MM - 9MM THICK SINGLE MOLDED DESIGN WITH NO JOINS	150MM THICK FORMED
STRENGTH / DURABILITY	HIGH	MODERATE	HIGH	VERY HIGH
DESIGN AND COLOUR VERSATILITY	MULTIPLE COLOUR OPTIONS	STAINLESS STEEL ONLY	MULTIPLE COLOUR OPTIONS	WIDE VARIETY OF TILE DESIGNS
LOCKABLE RIGID COVER OPTIONS	YES	NO	NO	NO

Pure Plunge Pools - High-Density Polyethylene (HDPE)

- **Seamless mould with no joints or liners for superior strength.**
- **Durable 10mm HDPE resists chemicals, UV, corrosion, and scaling.**
- **Lightweight yet robust, easy to transport and install.**
- **Available in multiple colours for style and affordability.**

Stainless Steel Plunge Pools

- Silicon-welded joints prone to staining/corrosion under poor water balance.
- Thin walls (as little as 0.5mm) make them vulnerable.
- Require strict, frequent maintenance and fresh-water cleaning.
- Limited to stainless look; rim overheats in sunlight.

Stainless Steel Pools with Vinyl Liner

- Liners wrinkle, fade, puncture, leak, or float under pressure changes.
- Damage often requires full liner replacement, raising costs.
- Typically installed in thin (0.5mm) stainless shells with welded joints, less robust overall.
